

Broadband Connection
Unlimited Possibilities

WiLine Network Extender

**Broadband Access
Beyond The Office**

Take The Power Of Broadband Into The Field

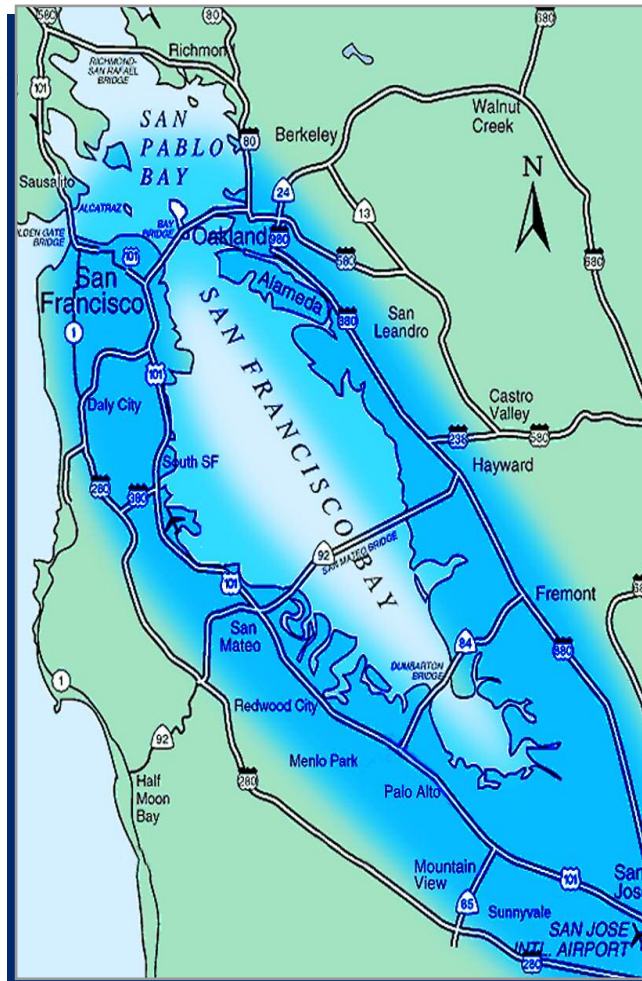

WiLine can give you high speed Internet access beyond the confines of your office, so you are free to roam. With WiLine Nomadic Network Extender you can quickly and symmetrically transfer data anytime, nearly anywhere within WiLine's network coverage area using a small portable antenna and your laptop. Experience the same secure, high-bandwidth connectivity you have in the office when you're in the field.

SET YOURSELF FREE

WiLine Nomadic Network Extender keeps you connected within WiLine's coverage area. Unlike the asymmetrical services offered by cellular data providers, our Nomadic Network Extender enables you to quickly transfer data at symmetrical speeds up to 5 Mbps, realizing the same fast speed on the upload and the download. So whether you're streaming video, sending email, talking on a VoIP connection, setting up a one time event or configuring temporary Internet access, you can count on WiLine to deliver the speed you need.

SERVICE FEATURES

- Symmetrical speeds up to 5 Mbps
- Service availability within WiLine's Network coverage area
- Secure and encrypted transmission
- 24 x 7 support
- All necessary equipment provided (WiLine software, SU, tripod, GPS, battery charger, inverter, network maps and soft carrying case)

WiLine Nomadic Network Extender Coverage Area

WiLine Difference

Reduce Costs

WiLine Nomadic Network Extender is an efficient and effective way to transfer data or set up temporary Internet access. Eliminate the need for costly capital investments, like satellite trucks or short term T-1 lines, when you can utilize WiLine's solution at a fraction of the cost to do the job for you.

Maximize Productivity

Get the job done in less time with fewer people when you have the tools you need including a high-bandwidth connection that is secure and reliable. With WiLine Nomadic Network Extender, a one or two person team can tape, edit and transmit a breaking news story in the field in less time than it takes to drive back to the newsroom.

Competitive Advantage

Go where you need to go to get the business. Get a leg up on the competition by freeing yourself from the confines of your office domain. Beat your competitors to the latest news stories or go where your customers are with a mobile event using WiLine's premium bandwidth connection.

Increase Revenue

Make your business mobile, making way for new revenue opportunities. Reach out to your customer base in new ways. Offer new service features to existing customers. Enhance the productivity of your business all through a broadband connection that goes beyond your office.

Reliable Support

24 x 7 support is always available to assist should a service need arise.

ONE SOLUTION, MULTIPLE APPLICATIONS

WiLine Nomadic Network Extender has many applications in our mobile world of business. It is the perfect solution for transmitting video feeds or setting up temporary access at remote events, construction sites, or natural disaster areas. Typical mobile network and WiFi connections can't deliver the upload speeds and reliability that most businesses require. WiLine Nomadic Network Extender can give you the speed you need to get the job done as efficiently and cost effectively as possible.

CONSTRUCTION SITE APPLICATION

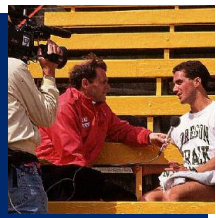

Setting up a temporary office location at a site that is under construction can be a costly endeavor with other providers but with WiLine, temporary Internet access and voice connectivity is affordable. Though WiLine Nomadic Network Extender, the construction team can move large CAD files at up to 5 Mbps and maintain contact with the home office with as many phone lines as you need. Save money yet improve efficiency with WiLine Nomadic Network Extender.

ONE-TIME EVENT APPLICATION

Hosting a remote event for your employees or customers and empowering them with Internet access is feasible and affordable with WiLine Nomadic Network Extender. Your business can take the power of broadband outside the office and into the field for one-time events, conferences, seminars, meetings and more. WiLine provides the service you need to set up one-time events that require connectivity.

VIDEO TRANSFER APPLICATION

When you have a hot news story, every minute counts. Driving the video tape back to the newsroom can use up hours and minutes that you just can't spare. Imagine getting it on-air without the expense of a satellite truck or the wasted transport time. WiLine Nomadic Network Extender is a solution that will dramatically reduce your expenses and data transfer rate so your story can go on-air in record time.

DISASTER RECOVERY APPLICATION

Stay connected even when disaster strikes. Let WiLine Nomadic Network Extender provide temporary Internet access and phone lines so your business can maintain operations. Our solution is quick to deploy and the connection speed is fast so you can be back in business in no time.

	Connection Speed	File Size	Upload Time	Download Time
WiLine	5 Mbps	50 Mb	42 seconds	42 seconds
Alternative Provider	384 kbps/768 kbps	50 Mb	21 minutes	9 minutes

Alternative Provider defined as a typical Mobile Wireless or WiFi provider

About Us

WiLine is a provider of fast, flexible, affordable broadband solutions to businesses of all sizes. We offer configurable voice, data, networking and hosting solutions that enable businesses to select the right combination of bandwidth and services to maximize productivity.

Advanced Network

Our tailored solutions are delivered over our private, facilities-based Metro Ethernet Network. We bypass the legacy architecture of the phone companies, allowing us to offer all the data and communication services businesses have come to expect but with configuration options and price points that are truly unexpected.

Personalized Support

We offer an industry leading Service Level Agreement and our customer support team is available 24 hours a day, seven days a week.
