

Broadband Connection
Unlimited Possibilities

WiLine Business Voice

Analog Or Digital Lines For Your PBX Or Key System

Savings And Service Worth Talking About

WiLine can help you stay connected for less than you expect while offering the dependability, clarity and calling features you require. Communicate around the corner or around the globe with our affordable local, long distance and international service plans. Making the switch is easy, keep your existing phone numbers and let us manage the number porting process, ensuring a seamless transition.

TECHNOLOGY ADVANCEMENT WITHOUT THE INVESTMENT

WiLine Business Voice delivers dial tone to your existing PBX or Key System over our converged broadband network. With WiLine, you leave the legacy of traditional phone service behind and transition to an advanced digital voice solution that will deliver a richer experience at a more affordable price. And, because this connection is digital, you get a technology upgrade without expensive equipment changes or disruptions to service.

MORE OF WHAT YOU EXPECT FOR LESS

We keep you in touch for less and include all of the features you have come to expect. Keep your local phone number and calling features but enjoy greater savings before you even start dialing. With WiLine Business Voice, unlimited local and on-network calling comes standard with every service plan. Unlimited extended local calling and unlimited long distance plans are also available so you can count on a flat rate, month after month.

AFFORDABLE SERVICE PLANS WORTH THE SWITCH

Our pricing plans are simple. No hidden fees or ancillary charges. Just select one of our affordable Business Internet Access service plans and add business voice with ease. We manage number porting for you, making the switch hassle-free. Easily move, add or change lines once connected. And, professional onsite installation, maintenance and repair services are always available.

- Unlimited Local Calling Plans
- Unlimited Long Distance Calling Plans
- International Calling Plans
- Toll-Free Services

SEAMLESS TRANSITION AND DEDICATED SERVICE

Getting connected to WiLine Business Voice is easy. Because our service connects to your existing equipment, there is no downtime typically associated with service changeovers. Our technicians get your service up and running in as little as five days and our customer support team is available 24 hours a day, 7 days a week whenever you need additional support.

ABOUT US

WiLine is a provider of fast, flexible, affordable broadband solutions to businesses of all sizes. We offer configurable voice, data, networking and hosting solutions that enable businesses to select the right combination of bandwidth and services to maximize productivity. Through a single broadband connection over our private network, we deliver superior quality voice and premium data speeds for less than you ever dreamed.

ADVANCED NETWORK

Our tailored solutions are delivered over our private, facilities-based Metro Ethernet Network. We bypass the legacy architecture of the phone companies and connect directly to all the buildings we serve. We handoff a scalable, Ethernet based interface to our customers thus eliminating the need for complex network equipment that is required with outdated phone company services. This advanced network allows us to offer all the data and communication services businesses have come to expect but with configuration options and price points that are truly unexpected.

PERSONALIZED SUPPORT

We offer an industry-leading Service Level Agreement to ensure you receive the highest availability and throughput with the lowest latency and packet loss on both our network and the last mile. Our customer support team stands behind our Service Level Agreement, available 24 hours a day seven days a week, providing the personalized attention that you deserve.
